Mauritania – Illegal postage stamp issues

Dear Sir/Madam

The postal administration of the **ISLAMIC REPUBLIC OF MAURITANIA** asks me to inform you of the following:

"Kindly inform all Union member countries and all our philatelic partners within the World Association for the Development of Philately that we are greatly concerned by the continuing proliferation of illegal postage stamps, a phenomenon of which our postal administration is a victim.

"We have just learnt of the appearance of a whole series of fraudulent postage stamps inscribed "REPUBLIQUE ISLAMIQUE DE MAURITANIE" on various websites and in philatelic promotional publications. We have recorded no fewer than 95 illegal stamps.

"We therefore wish to protest in the strongest terms against these illegal postage stamps. The deceitful advertising goes so far as to state that "the origin of these stamps may be questionable and may be listed as illegals. We therefore suggest that you buy them only because you like them. We offer them because they are on the market". As well as having face values in UM and a rather high selling price, most of these stamps are sold in perforated and imperforate formats. Worse still, the imperforate versions sell for double the price of perforate ones.

"The negative publicity these illegal postage stamps generate for our country amounts to a serious attack on the moral, religious and economic integrity of Mauritania, its postal service and the Universal Postal Union as a whole. It is a serious and flagrant violation of article 6 of the Universal Postal Convention and the associated provisions of the Letter Post Regulations. It is, in particular, a violation of the national legislation of the Islamic Republic of Mauritania, and in particular its law on the Post and its provisions on counterfeit postage stamps.

"Under the terms of this law, the Mauritanian Postal Corporation alone is authorized to issue and disseminate postage stamps in the name of the Islamic Republic of Mauritania.

"This situation is further aggravated by the fact that the logos of various organizations are reproduced on most of the illegal postage stamps. These organizations may be led to believe that we have used their logos without permission and these organizations could take legal action against us for breach of copyright.

"We call upon all parties to redouble their efforts to combat the scourge of illegal postage stamps and to exercise increased vigilance with regard to the production and distribution of such stamps in their respective countries. We are counting on the cooperation of all to help identify and track down the criminals responsible.

"We would take this opportunity to state that our postal administration has not issued any postage stamps since the end of 2000. Legally valid postage stamps may be purchased directly from the following address:

MAURIPOST
Service philatélique
Direction générale

"A list of the illegal postage stamps identified to date is annexed."

Yours faithfully,

K.J.S. McKEOWN
